| STP**             |      |      |      |      |      |

\*4000A with forced cooling

\*\*STP and LBSF cubicle maximum ratings are 630A

# TECHNICAL SPECIFICATIONS

The rated characteristics of the switchgear are guaranteed under the following ambient conditions:

| Parameter                        | Parameter value  |
|----------------------------------|--|
| Minimum ambient temperature      | - 40 °C*   |
| Maximum ambient temperature      | + 40 °C**  |
| Maximum altitude above sea level | 3000 m ***   |
| Relative humidity                | 95%  |
| Ambient atmosphere               | Presence of normal, non-corrosive and uncontaminated atmosphere. |

\*with selected microprocessor electronics only.

\*\*+ 55 °C on request.

\*\*\* in accordance with IEC 60721-2-1 for altitudes above 1000 m, it is required to take into consideration the decrease of dielectrical strength applying factor from the table.

The SG\_MILE series switchgear are suitable for operation in the climate of Wda type in accordance with IEC 60721-2-1 standard.

## Main technical data:

|   |   |   |                                  |
|---|---|---|----------------------------------|
| Rated voltage, kV                                   | 12                                      | 17,5                                    | 24                               |

\*\* 4000A with forced cooling

The panel operation environment must not have dust, particles, fumes or smoke, corrosive or flammable gases, vapors or salts.

# APPLICABLE STANDARDS

| Description  | Standard          |
|--|-------------------|
| High-voltage switchgear and control gear – Part 1: Common specifications   | IEC 62271-1       |
| High-voltage switchgear and controlgear – Part 200: AC metal-enclosed switchgear and controlgear for rated voltages above 1 kV and up to and including 52 kV | IEC 62271-200     |
| High-voltage switchgear and control gear – Part 200: High-voltage alternating current disconnectors and earthing switches                                    | IEC 62271-102     |
| Insulation coordination – Part 2: Application guide  | IEC 60071-2       |
| High-voltage switchgear and control gear – Part 100: High-voltage alternating current circuit-breakers   | IEC 62271-100     |
| Instrument transformers - Part 2: Additional requirements for current transformers   | IEC 61869-2       |
| Instrument transformers - Part 3: Additional requirements for inductive voltage transformers   | IEC 61869-3       |
| High-voltage switchgear and control gear - Part 103: Switches for rated voltages above 1 kV up to and including 52 kV  | IEC 62271-103     |
| Unsealed metal-enclosed switchgear and control gear for voltages up to 10 kV. General specifications   | GOST 14693-90     |
| Factory-assembled metal-enclosed switchgear for rated voltages up to and including 35 kV. General specifications   | GOST R 55190-2012 |
| Alternating-current circuit-breakers for voltages from 3 to 750kV. General specifications  | GOST R 52565-2006 |
| EU LV directive  | 2014/35/EU        |
| EU EMC directive   | 2014/30/EU        |
